World Children's Day is UNICEF's annual day of action for children, by children, marking the adoption of the [Convention on the Rights of the Child](#).

Children's rights are human rights. But in too many places today, children's rights are under attack.

On World Children's Day we're making space for children and young people to raise their voices on the issues that matter to them. By prioritizing children's rights and participation, we can help to build a better future for all.

Kids are speaking out and reimagining a better future. Join us!
Explore what's happening on World Children's Day.

#ForEveryChild, Every Right!

For every child, peace

Every child, everywhere, has a right to live in a peaceful world.

For every child, a livable planet

Children have a right to a safe and livable planet.

For every child, a voice

Children must be listened to and included in all decisions that affect them.
